

**REMARKS**

The Examiner's objection to the disclosure regarding the claims being required to commence on a separate sheet is not understood. The text of the application in the undersigned's file has the claims beginning on page 13 of the specification. In any event, since the claims are amended, a new set of claims is submitted herewith which commences on a separate sheet.

Enclosed is a Terminal Disclaimer disclaiming the term of the present application beyond the term of the claims of the Assignee's U.S. Patent 6,674,995.

The Examiner's indication of allowable subject matter in Section 14 of the Office Action is noted with appreciation. The undersigned wishes to thank the Examiner for his thought in suggesting an amendment to the claims which would place the application in condition for allowance which is graciously accepted by the Applicant.

In view of the foregoing amendments and remarks, it is submitted that the application is in condition for allowance. Early allowance thereof is respectfully requested.

Applicants request any shortage or excess in fees in connection with the filing of this paper, including extension of time fees, and for which no other form of payment is offered, be charged or credited to Deposit Account No. 01-2135 (Case: 0171.37353CX1).

Respectfully submitted,

ANTONELLI, TERRY, STOUT & KRAUS, LLP.
